[linkedin.com/in/Asysyifau-Fathul-Umma](https://www.linkedin.com/in/Asysyifau-Fathul-Umma)

A graduate of Semarang State Polytechnic, majoring in Electrical Engineering with a Diploma 3 (D3) in Electronics Engineering. Has an interest and understanding in electronics, instrumentation, microcontrollers, and PLC systems. Possesses internship experience at CV Hartono Audio, involving assembly, testing, and maintenance of audio equipment. Holds an Industrial Automation Technician certification (BNSP). Oriented toward assembly, programming, and control systems for PLC.

E D U C A T I O N

SEMARANG STATE POLYTECHNIC | ELECTRONICS ENGINEERING

2023 - 2026

- Basic understanding of electronic circuits (analog and digital)
- Use of measuring instruments (multimeters, oscilloscopes, power supplies)
- Microcontroller & PLC programming
- Industrial control and automation systems
- Circuit design and simulation (Proteus)
- Basic programming (C/C++, MATLAB)

SMKN 2 DEMAK | COMPUTER NETWORK ENGINEERING

2020 - 2023

- LAN and WAN network installation and configuration
- Network device configuration (routers)
- UTP cable crimping and physical network installation
- Basic virtualization (VirtualBox, VMware)

E X P E R I E N C E

CV. HARTONO AUDIO - AUDIO TECHNICIAN

September - December 2025

- Assembling audio devices
- Test the function and quality of audio devices after repair
- Troubleshooting and repairing audio devices
- Performing routine maintenance on audio devices
- Using measuring tools such as a multimeter to check circuits

T R A I N I N G C E R T I F I C A T I O N

- Industrial Automation Technician (BNSP) - 2025

S K I L L S

- Technical skills: Understanding of measuring instrument calibration, microcontrollers, instrumentation, PLCs.
- Software skills: MS Office (Word, Excel, PowerPoint).
- Personal skills: Problem solving, communication, teamwork, adaptability, agility, discipline, leadership, accuracy, and time management.
- Language: English and Indonesia.
